

CONCRETE TOOLS

THE ORIGINAL "SMOOTH MOVER" CONCRETE PLACER

Simply the best concrete placer on the market. Made from high strength tempered aluminum alloy, the Smooth Mover is strong enough to pull mesh with the corners of the blade, so you don't need a hook! Includes 60" x 1-3/8" ash handle.

DON'T BE FOOLED BY IMITATIONS. Remember, if it doesn't have the Czar Weld name on it, it's not a Czar Weld tool.

**WORKS GREAT FOR
MOVING SAND,
CHAT AND
ASPHALT, TOO!**
